

We use state-of-the-art equipment and software to produce highly precise parts with the shortest lead times possible.

## Quality

- ISO 9001:2000 certification
- Latest CNC machinery and manufacturing software.
- Full complement of precision testing equipment.
- Thorough in-process testing procedures.

## Experience

- 40 years in business
- Trained, experienced, quality driven workforce
- Broad spectrum of industries served, such as:
  - Electronic
  - Aerospace
  - Automotive
  - Commercial
  - Medical
  - and more

## Products

- Housings
- Hubs
- Shafts
- Bushings
- Rings
- Bearings
- Valves
- and many more items

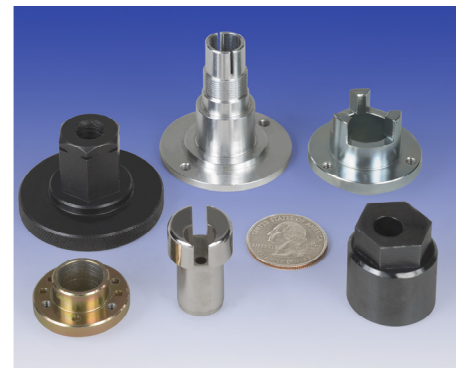

## Capabilities

- CNC turning/live tooling
- CNC milling
- Swiss-type turning: 7 axis

## Materials

- Aluminum
- Steel
- Stainless Steel
- Plastics
- Bronze
- Brass
- Castings
- and more
